

THE HOLD FAST

By Walther Innovations, LLC

*Patent Pending

Product Features

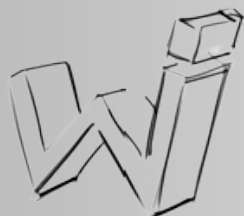

- Tie-down strap that is adjustable, adaptable, and fast to install
- Versatile for cargo loads of varying size, shape, and mass and items without traditional tie-down points
- Safely secure items in place without fear of tipping, falling, or shifting
- Easy to use and easy to store

Product Specifications

- 1" Wide Polyester Webbing
- Holds 300-400lbs Working Load
- 4 or more strapping points
- Inner loop length adjustments
- Suitable for Light and Heavy Duty Applications
- Larger and smaller versions available with varying load limits and adaptability.

APPLICATIONS

Boxes and box-shaped cargo, including heavy items and appliances such as refrigerators, dressers and cabinets, cylindrical items such as drums, buckets, tanks, bundles of material, and oddly-shaped items and items that do not come with traditional tie down methods. Accepts any method of traditional anchoring such as lashing straps, rope, ratcheting straps, bungee cords, etc.
